Social Media Audit

Last Frontier Coffee

By Yubeen Choi

Instagram Feed Content Mockup

Brand Overview & Target Market

Brand Position & Competitor Overview

Core
A cozy, community-oriented cafe in Bellevue, WA, focused on creating connection.

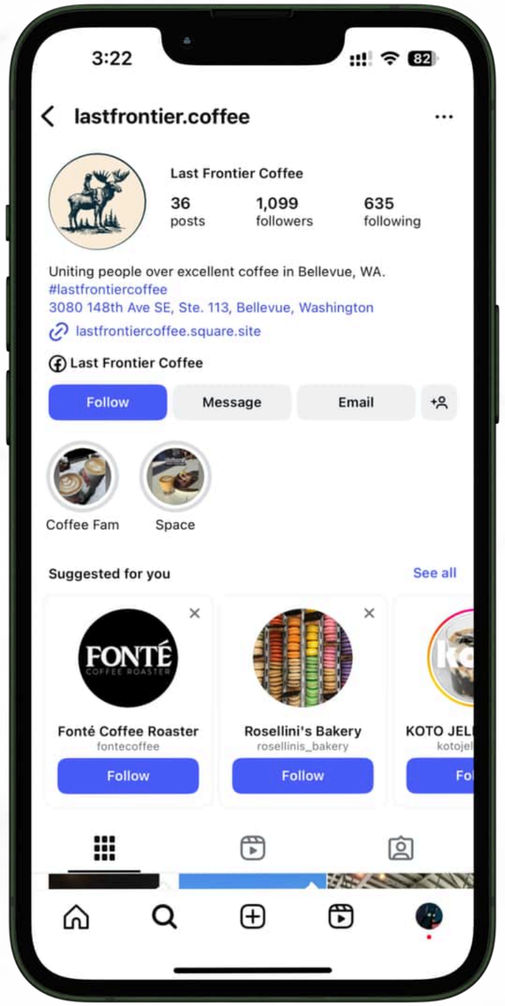

Target Audience
Local residents, College students, and young professionals.

The Challenge
While competitors (Farine Bakery, Belle Pastry) dominate with aggressive content diversity and clear business info, Last Frontier lacks visibility.

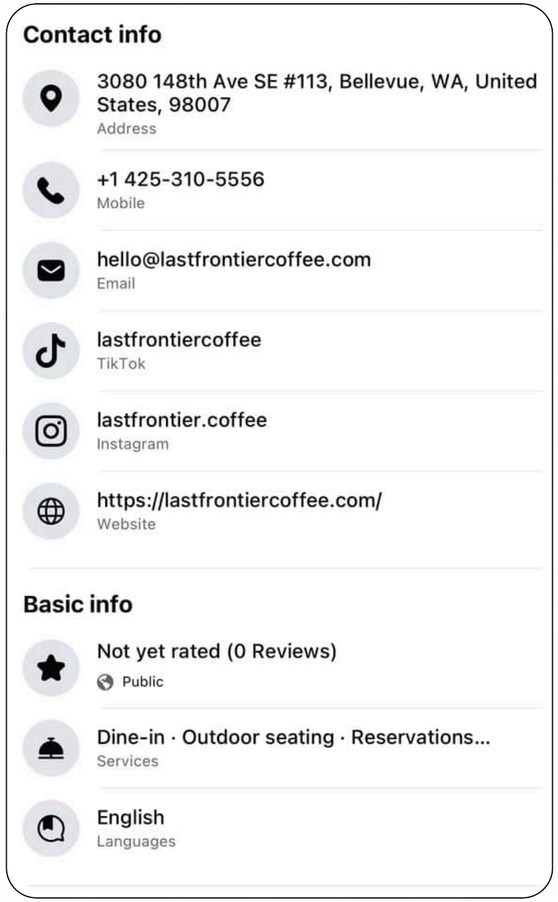

Channel Audit: Instagram vs. Facebook

Current Digital Presence & Friction Points

Instagram

Facebook

Instagram

Moderate to strong engagement driven by community atmosphere and unique branding (1,099 followers).

Facebook

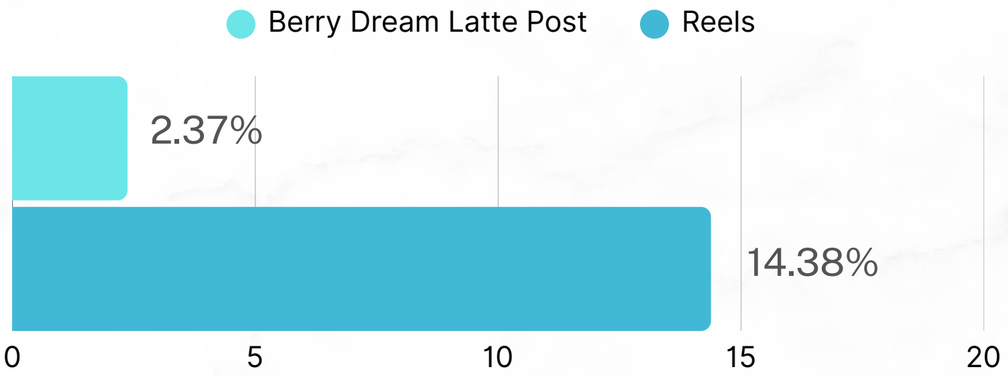

Low engagement, no reviews, and minimal interaction despite cross-posting visual content.

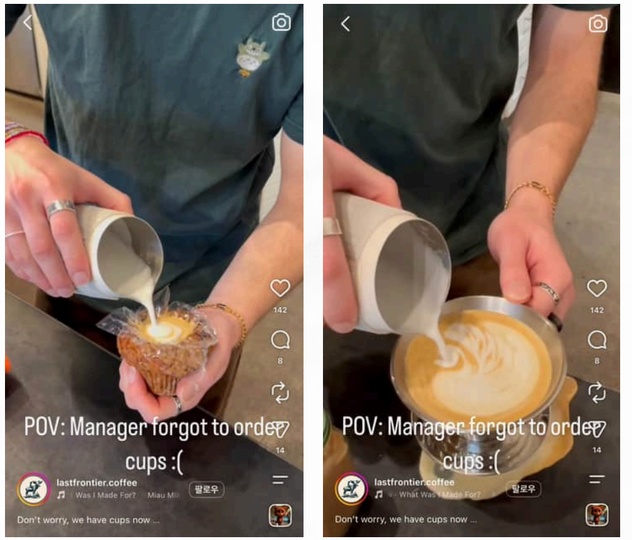

The Critical Flaw

The official website link in the Instagram bio is broken or misdirected, which is freezing the online-to-store conversion funnel.

Data Analytics: The Power of Short-Form

Performance Metrics & Content Insights

The Data

Instagram Reels generate an Engagement Rate of 14.38%, which is over 6x higher than static image posts (2.37%).

Consumer Insight

Humorous, relatable, and behind-the-scenes content (e.g., "POV: Manager forgot to order cups") highly resonates with local audiences and drives virality.

The Gap

Organic reach is still heavily limited due to a small follower base and a complete lack of tracking tools
(No UTM codes, no Google Tag Manager).

Strategic Recommendations

Action Plan for Growth & Conversion

01 Fix the Foundation

Instantly replace the broken link with a trackable URL integrated with UTM codes to measure click-through conversions.

02 Double Down on Reels

Establish a consistent schedule of 2 Reels per week focusing on trending audio, drink prep, and community/staff stories.

03 Bridge Accessibility

Update Instagram Highlights with clear, practical visitor information (operating hours, parking options, Wi-Fi availability) to drive store traffic.
